The Chinese Emperor announces that ie is about to "root out the pestilen Japanese in their lairs," and it is said he whole Chinese fleet, a pretty strong one, is gathering to carry out the arangement. At the same time the Japanese, after sinking one of the Chinese essels and beating their second best battle-ship, are cleaning their guns and etting ready for a good naval battle. Our people do not feel any great interest in the quarrel between China and Japan, but they will watch anxiously for these promised sea-fights, and will expect to find the descriptions of them well worth reading and studying. Hence "The Evening World," which will, of course, give as, usual, the best and earliest accounts of the engagements, will be watched for more eagerly than ver. Prevention is better than a cure ever time and all the time.

One of the great needs of the young children in humble life is to be delivered from their friends. The following ex tract from an "Evening World" staff doctor's report is pertinent:

River a Second Time.

John Ronan, twenty-one years old, of 92 Christopher street, attempted suicide shortly after 1 o'clock this morning, by jumping into the North River at the foot of West Eleventh street.

Ronan would probably have succeeded in ending his life, but for the arrival of Policeman Martin Copeland, of the Charles street station, who had been summoned to the spot by a man who saw him jump in.

Copeland borrowed a hook and pole from a captain of a canal-boat, and after a great doal of trouble Ronan was gotten out of the water. He was taken to the Charles street station-house, where he was locked up for the night.

This is the second attempt that Ronan has made to end his life. His first effort was made about three months ago, when he jumped into the North River at the foot of West Tenth street. He would have drowned that time had it not been for a companion named Honnessey, who jumped in after him and finally rescued him after a hard struggles.

and serve. Heavy Drinking Is Harmful.

People drink too much at table. Nature supplies gastric juices in sufficient quantity to dissolve the food. A swalow of water will cool the mouth and throat as thoroughly as a gobletful. Heavy drinking of ice-water stomach, paralyzes digestion for the instant, and weakens the saliva. Doctors say only drink enough at table to avoid no happiness for a girl to be tied to a man she the hiccoughs. Wineglasses are very

The Summer Ribbon.

Ribbons are always a great feature of the Summer evening gown, and this season they flutter in as great profusion as before. Shoulder straps and graceful braces, finished with full rosettes or choux, are seen, many of which continue to the waist line, and there finish it long, floating streamers that fall to the bottom of the gown, both back and front weighted with a rosette at he end of each to keep them from frolicking too madly.

Ecas and Tomatoes.

Fresh eggs are two cents each, and ripe tomatoes are about the same price. Get a dozen of each. Peel, core and stew the vegetables, season to taste and set aside. Butter a tin dish and carefully break it into the eggs; dust with fine bare arms are the rule. It goes without salt, and bake in the oven until the white is set; pour the tomato sauce over the eggs, bake a few minutes longer and serve hot with nice toast. Cold Cream.

Put your crust into a pot, fill with peaches and cover them with sugar-house molasses, put a crust on the top, and let it boil until the peaches are done. Plums, apples and berries of all kinds may be mad- the same way.

Seasoning Foods.

Cooks take unpardonable liberties with the foods they prepare. Everybody wants the soup to be savory, but pickling it is not always satisfactory. Many people object to pepper. Not a grain should be put in the pot or in a general dish, and not a drop of vinegar, gravy or oll should be put on meats or vegetables. There is no objection to a little salt, and the smaller the quantity the better, for a deficiency is readily corrected, while too much may spoil the broth. In perfuming the soup the tusteof the family should be consulted. Lemon parsley and bay are all right, but carrots, onlone and mace have vigorous and healthy opponents.

Cocoanut Pie. Scald one pint of milk, and stir into it, until smooth, a tablespoonful of flour that has been well blended in a little milk. It will take about ten minutes to cook the flour thoroughly. Remove from the fire and stir into it half a cupful of sugar, a quarter of a teaspoonful of salt, and when cool a scant cupful of fresh grated cocoanut and the whites of two eggs whipped to a stiff froth. Line a deep pie plate with rich paste, pour in the mixture and bake without an upper crust

Fruits for Children.
